

SONG OF HEALING
2017

written by Meagan Maria Devauld copyright

Lead us to the water, and to a new era give birth
Oh, Fill our souls with fire, so we can heal the earth
Lead us to the water — —
So we can heal-heal

V: Even through the dark nest night
I see your light, it shines so bright
In this tiny world of ours
We're only children who know not of your heart

Ooh, I can see the stars
Oooh, but they're too far

CH: So lead us to the water, and to a new era give birth
Oh, Fill our souls with fire, so we can heal the earth
Lead us to the water — —
So we can heal-heal

And they will say it's human nature
to breed death and destruction , but when love is born you'll change your mind, you'll
see
your soul is born in revolution
so there's only one solution

Fire-oooh
Oh, Water - ooohh

(Sax and flute line)

CH: So lead me to the water
Fill my soul with fire
So lead me to the water
Fill my soul with fire

So we can heal
So we can heal
So we can heal

End on G
