

Halfway There Written by Meagan Maria Devauld 2022

CH: We gotta meet the light half way there
Gotta meet our darkness half way there x2
So when the whole world denies you
Assualting your mind you, can find you way out
with the strength inside you
Never give up, you're half way there

VS: In a world so divided, don't know who's right and who's wrong
Seems like we'll never get along
You're fighting demons in the shadows while the others carry on
It's easy to feel like you don't belong

What would you do? When they all descend into madness
Would you try to understand?
Where will you go? When the time comes to stand up for justice
Will you take another's hand? Oh yes it's time to take a stand

CH: We gotta meet the light half way there
Gotta meet our darkness half way there x2
So when the whole world denies you
Assualting your mind you, can find you way out
with the strength inside you
Never give up, you're half way there

VS: Light the way with the truth now, even when they say you're wrong
Keep that flame burning strong
Be courageous as a lion, and peaceful as a dove
Lead the world with your love

Keep the faith inside you, as you stumble into the unknown
Never forget who you are
Oh the light will guide you, steady onward you're never alone
Though they make you feel you are, the divine is never far

B: I know the war is on and the struggle belongs to each and everyone
Stay compassionate and humble while you take on those who try to drag you down
There's only one way, one truth, one light

CH: We gotta meet the light half way there
Gotta meet our darkness half way there x2
So when the whole world denies you
Assualting your mind you, can find you way out
with the strength inside you
Never give up, you're half way there
Don't you ever give up, you're half way there
