

BATTLE CRY

written by Meagan Maria Devauld copyright 2021

I Feel the tension building, people rising in the streets
If we don't come together we will surely claim defeat

No matter how hard they try
To steal your soul and your life
You need to breathe through the pain
And rise from the ashes once again

CHORUS:

So this our battle cry
For truth and justice we will fight
And we will never give in
Only United we can win

We look to all creation there is no choice but to fight
Can't cave under the pressure even though they've got the might

They want to buy you for the fame
Then they'll destroy you for their gain
Yes the road is rocky and it's long
Stand your ground, rise up and hold on

CHORUS:

So this our battle cry
For truth and justice we will fight
And we will never give in
Only United we can win

This is our battle cry x4

Hold On, Stand Strong x4

Awake and rise up
Don't ever give up
Take down Babylon
Call the Lions
