

THE CITY

written by Meagan Maria Devauld copyright 2016

CH: When the lights go out in the city
Where will you go?
The lights go out in the city, ooh.

In the shadows of the city
you walk with your shame and your pride
With all that makeup you're so pretty
but who are you inside?

Oh when the streets are laced with plastic waste
What peace will we find?
No love, in this people race
We've got to change our minds

CH: When the lights go out in the city
Where will you go?
The lights go out in the city, ooh.

So you say you've forgotten how to love
Feeling there's no guidance from above
so you're life's been a journey of all your good intentions
In you peace will surely come if all that you have done
is sing out a loving song for the goodness of us all

CH: The lights go out in the city
Where will you go?
The lights go out in the city, ooh.
When the lights go out in the city
Where will you go?
The lights go out in the city, ooh.

B: Instrumental Dub

When the lights go out
When the lights go out
When the lions come
Will you be the one?
(Repeat)

CH: The lights go out in the city
Where will you go?
The lights go out in the city, ooh.
When the lights go out in the city
Where will you go?
The lights go out in the city, ooh.

Oh, in the city, yeah in the city
In the city
